nics industry, the Chelliah Committee in its final report (Part II) have recommended import duy at the rate of 20 per cent on raw materials and capital goods including projects imports, and 30 per cent on piece parts, components, sub-assembly, equipments and instruments and apparatus by the year 1997-98. It is seen from the said report that Electronic Component Industries Association (ELCINA) had submitted a memorandum and gave evidence before the Tax Reforms Committee. In February '93 ELCINA have issued certain reports in press differing with the above said recommendations of Tax Reforms Committee. In the 1993-94 Budget, the import duty on specified raw materials for electronics industry has been reduced to 20 per cent advalorem (from 40 per cent).

(b) Does not arise, since the import duty structure recommended by the Tax Reforms Committee as in (a) above is for the year 1997-98.

Leakage of Budget proposals

2542. SHRI KAMAL MORARKA: Will the Minister of FINANCE be pleased to state:

(a) whether it is a fact that the Economic Times dated the 11th February, 1993 carried a portion of pre-budget Economic Survey; and

(b) if so, how this information was made public before the document was placed on the Table of the House?

THE MINISTER OF STATE IN THE MINISTRY OF FINANCE AND MINISTER OF STATE IN THE MINISTRY OF PARLIAMENTARY AFFAIRS (DR. ABRAR AHMED): (a) and (b) The Economic Times dated 11th February 1993 had carried a story which appears to correspond, in some respects, with some of the earlier discussion papers prepared in the Economic Division of the Department of Economic Affairs and circulated among the various Ministries for comments before the Economic Survey is finally drafted. The published story consisted of data and facts which were already available from published sources and is substantially different from the Ecnomic Survey placed on the Table of the House on 23 February 1993. The Economic Survey is not part of the Budget documents.
